Royal Caribbean Cruise Line
15 Nov 2011 to 18 April 2013

System Analyst
4th Flr. FMSS Bldg. Bagtikan St., Makati City
- We managed application independently from application servers that automate the services and processes defined in the business logic.
- Business modeling and integration (which itself is defined as part of the business model) the position or line of job are defined in a business logic layer, allowing underlying application servers to be business logic agnostic and therefore need no business driven customization. DBM applied correctly should reduce both the cost and risk in the initial implementation and its future evolution of systems.

Hi Sir/Madam,

If your company requires a high-energy Web Developer, Web Designer and Digital Marketing with a no-excuses attitude and is up to any task, I am the person you are seeking. My qualifications and experience will enable me to fulfill your expectations.

I am conscientious in my personal and professional life. I take pride in myself and my work, and derive considerable satisfaction from doing an assignment well. I cope well with high-stress situations and can manage a variety of projects simultaneously. I am seeking a responsible position that offers challenge and opportunity. I am willing to take any travel or working abroad.

I believe my background provides the skills you require for this position. I would welcome the opportunity for a personal interview to further discuss my qualifications.

Sincerely,
Crisaldo P. Punzalan
